Do you believe you could be one of the most informed and influential doctors in your hospital? Yes, that’s right. One of the undoubted highlights of WCA2008 will be the networking and information exchange. We will be featuring innovative learning methods, free lunch during congress, and free transfer to & from airport and conference center. In addition, we offer a multitude of professional development offerings crucial for the high standards of anaesthesia, pain treatment, trauma management and resuscitation to all peoples.

The objective of WFSA (World Federation of Societies of Anaesthesiology) is to make available the highest standards of anaesthesia, pain treatment, trauma management and resuscitation to all people of the world and to determine the same amongst them. WFSA is composed of 118 member societies.

ABOUT SASA

The South African Society of Anaesthesiologists (SASA) is the host society of the WCA2008. SASA lists over 850 members and aims to promote the science of anaesthesia and allied sciences in South Africa.
The World Congress Faculty will present over 325 tutorials and discussion sessions covering a wide range of topics in anaesthesiology and related medical fields as well as workshops at an array of technical levels.

Our professional development offerings are created to accommodate all levels of experience and achievement—so you can give your knowledge and skills a much-needed boost. The venue for this meeting is one of the top ten tourist destinations on Earth. It is spectacularly beautiful and boasts a first-class infrastructure. Cape Town is the gateway to the unexplored southern Africa.

The world-renowned Cape Town is a city of academic excellence and will engage internationally renowned experts who will use a wide variety of learning techniques to advance and sharpen your professional performance, reputation, and career.

To enhance your experience and make the occasion a truly memorable one, you will be warmly welcomed by the World Federation of Societies of Anaesthesiologists. You will experience a cutting-edge academic programme and will engage with internationally renowned experts who will use a wide variety of learning techniques to advance and sharpen your professional performance, reputation, and career.

The full scientific programme is available on our website and is regularly updated. We are excited to present an amazing range of topics to be as interactive and engaging as possible.
